"I'm going to ask you a few questions that will help me write a great resume for you."

Testimonial from Chief Financial Officer (CFO)

"Bob, I just wanted to send you a note of thanks. Two months ago you created a great resume for me. I sent it to a corporation that a friend recommended. He heard they were looking for new leadership in managing their financial operations. As it turned out, the corporation had already been interviewing candidates for weeks and they had already narrowed the search to one candidate. A final interview had already been scheduled with that candidate. At this point in the process, they received my resume. I received a call asking me if I could come in for an immediate interview and that they were very impressed with my background from reading my resume. After three lengthy interviews, taking place over three days, and some careful salary negotiations on my part (thanks to your tips). I was named their new Chief Financial Officer. I can't thank you enough Bob. You were extremely professional to deal with, and the resume was worth every dollar I paid for it. I would highly recommend your service to any individual needing a top notch resume.

James C.
